Amendment No. 3
Solicitation No. RFP-9054-004-004-WD
Hunters Point Shipyard Site
Drilling Services

This amendment is issued to revise the Technical Submittal portion of the Request for Proposal and to revise the Statement of Work as follows.

Changes to Technical Submittal:

Item 11 B. Item (3) from Page RFP-5 is removed from the Technical Submittal portion of the solicitation, as follows:

~~11. B. (3) Previous experience with hydraulic fracturing or assisting with hydraulic fracturing.~~

The Subcontractor cannot provide hydraulic or pneumatic fracturing services of any kind. A lower tier Subcontractor may be used to assist the drilling Subcontractor with the hydraulic fracturing portion of the work.

All other items contained in the Technical Submittal portion in Part 1 of the solicitation remain unchanged.

Changes to Statement of Work:

Paragraph 4 of **Section 2.1.3.2 Hydraulic Fracturing and EHC®** is revised as follows:

“The FRAC RITE™ process was developed in 1995 specifically for geo-environmental applications in unconsolidated, low permeability sediments. Fracturing is conducted using proprietary down hole fracturing equipment designed for various soil types at shallow depths and low operating pressures (typically that of overburden pressure). The resulting network of sand-filled fractures that is created enables in situ treatment of subsurface contaminants. **Due to the proprietary nature of the FRAC RITE™ process, the drilling Subcontractor must not provide hydraulic or pneumatic**

Amendment No. 3

fracturing services of any kind. A lower tier Subcontractor may be used to assist with hydraulic fracturing in order to avoid a conflict of interest with Frac Rite.”

Firms shall acknowledge receipt of this Amendment on Page BID-1 of the Price Sheets. Proposals are due by 4:00 p.m. prevailing VA time on March 17, 2010.

End of Amendment No. 3
